

Hemerocallis 'Ruby Stella'

Ruby Stella Daylily

DESCRIPTION

'Ruby Stella' is a durable perennial with grass-like leaves that produces showy clusters of deep wine-red lily-like fragrant blooms on tall stems.

The flowers appear in late spring to early summer and continue until frost. 'Ruby Stella' is in its full glory by July!

Unlike most daylilies, it re-blooms throughout summer, with sufficient reliability that it is categorized as ever-blooming.

Even though drought tolerant, 'Ruby Stella' blooms much better with regular watering.

Attracts hummingbirds.

QUICK FACTS

Plant Height: 14-18"

Plant Width/Spread: 18"

Hardiness Zone: 3-9

Flower Color: Dark red with yellow-green throat

Sun/Light Exposure: Full to part shade

Bloom Time: June to August
