

# Hibiscus moscheutos 'Kopper King'

## Kopper King Rose Mallow

### DESCRIPTION

'Kopper King' is a compact, vigorous, sturdy, rounded, somewhat shrubby, woody-based hibiscus cultivar which typically grows to 3-4' tall.

Features copper-red foliage and dinner plate-sized, 5-petaled, hollyhock-like flowers (10-12" diameter) which are among the largest flowers produced by any perennial.

Individual flowers last only one day, but one or more flowers usually open each day, in succession, over a long mid-summer to early fall bloom period.

Lobed, maple-like leaves are coppery red.
